

Clark Forklift Part

Clark Forklift Parts - At present, there are over 350,000 Clark lift trucks performing globally, and more than 250,000 in service in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized items designed for 20 distinctive brands of lift trucks and automated equipment. Your local Clark Dealer is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark features a phenomenal Parts Supply team. The items warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really amazing intercontinental support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling industry.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a customary feature on every lift truck.

Clark has a relentless goal to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the system of "Lean Production" at all of its assembly plants because this technique is extremely economical and enables minimal use of resources. Developed to ensure maximum efficiency, this system is intended to find and acknowledge the most effective ways for production plant management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to upgrade the effectiveness and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines modern product development and offers superior client support and service within the industry.
