

Rockwell Part

Rockwell Parts - The business of AxleTech International is a big supplier of specialty vehicle drive-train systems and parts together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for quality, service, technology and delivery. They believe in working within an environment that encourages the utmost integrity with empowered teamwork, combined with a relentless pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious company and providing a safe environment for their employees to work in. In addition, they have applied several programs in the organization in order to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever comments or questions, since they are happy to promote and share this policy with a greater understanding of their efforts. They are very devoted to preserving and improving the natural world. AxleTech has an EHS program that not just protects the environment but which even actively protects their neighbors and staff also.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in manufacturing and designing planetary axles for both commercial and military applications. These applications vary from construction equipment to airport ground support. AxleTech specifically designs axles to meet particular application demands. They have more than one thousand various axle specs in their existing offering. With more than 100+ years of experience and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The company is well known in various military and commercial applications. They offer complete axle assemblies used for aftermarket replacement needs, along with servicing axle requirements for OE production. Their high mobility ISAS have extra details that could be found in the "ISAS" product selection.
